YOUR FRONTLINE DISTRIBUTOR FOR ANNOVI REVERBERI NORTH AMERICA
Double lip oil seals.

Drain plug to empty liquid from the manifold before winter storage.

Large capacity oil tank. Remote oil tank installation available.

Wide range of inlet and outlet fittings.

Pump feet with Cataforesis protective treatment—Robust and bolted to the pump body.

Version with splined through shaft or straight keyed shaft for mounting of hydraulic motors.

Pump head in nylon or polypropylene for aggressive chemicals.

High quality needle bearings under the connecting rods to reduce friction.

Inlet and outlet manifolds are modular and position can be modified.

Manifolds with double O-ring in BUNA and Viton® Rubber for aggressive chemicals.

H

High quality needle bearings under the connecting rods to reduce friction.

System to expel the air in the pump.

Attachment points for lifting.

Bolts and nuts for fixing the diaphragm in AISI 304.

GEOMET® bolts and nuts.

Long-life BlueFlex™ diaphragms for resistance to spraying chemicals and aggressive liquid fertilizers.

Reinforced plastic air chamber with BlueFlex™ diaphragm.

Kit coupling flange and coupling for joining two pumps.

Flanges for connection to hydraulic motors and gearboxes.

Bolts and nuts for fixing the diaphragm in AISI 304.

GEOMET® bolts and nuts.

Large valves in AISI 304 and AISI 316 for best hydraulic efficiency and better resistance to chemical agents.

Wide range of inlet and outlet fittings.

Inlet and outlet manifolds are modular and position can be modified.
